**Transplanted White Pines Six Years Old**

# The Service of Efficiency

**O**UR Little Tree Farms could not be better situated for the growing of trees or for economy and convenience in shipping. They are located on the Boston and Albany Railroad, main line (New York Central Lines), and on the New York, New Haven and Hartford Railroad, and connected by a short branch with the Boston and Maine Railroad. We deliver free to freights, expresses and mails by auto truck, thus insuring the greatest promptness.

**T**HE Adams and American Express Companies, and connecting agencies, the Western Union Telegraph Company, and the New England Telephone Company, have agents in South Framingham.

**W**E use the A. B. C. Telegraph Code, fifth edition, the Western Union Code, and the Nurserymen's Telegraphic Code.

**O**UR little trees are not exposed to the infection usually surrounding imported stock, for we import nothing. A copy of the United States Entomologist's certificate of inspection, which assures you of the freedom of our nurseries from plant diseases and pests, accompanies each shipment.

**W**E have a thoroughly modern packing house. In the moist air of a spacious cellar, preventing the drying-out of the roots, the plants are counted and packed. The result of drying-out in the open air often spells failure.

**W**E ship in bundles of convenient size, carefully tied, and graded according to our catalogue. To avoid confusion, we request our customers kindly to follow catalogue gradings in ordering.

**W**E suggest that you order early, that we may ship more promptly and render a better service.

**W**E always fill orders in succession of receipt, and never delay early orders to fill late ones,—the only procedure fair to our customers. Better order early, even if not ready to receive, for we will ship the trees when you need them.

**R**EMEMBER: our trees are raised from seed and the seed is carefully selected.

**K**INDLY give complete instructions for marking each shipment. State approximate time of shipment, and designate freight, express, or mail. The new parcels post regulations permit much more extensive use of the mails than has been possible up to this time. In the absence of instructions, we shall use our best judgment. Our responsibility, of course, ceases upon delivery to the transportation company.

**T**HREE is a low special express rate on trees, plants, and seeds, which is 20 per cent less than regular merchandise charges, but express companies occasionally overlook it.

**T**HE regular spring shipping season usually begins about the end of March, continuing until the first of June. In August and September evergreens are shipped and our hardwoods about the first of October. Fall shipping may continue until the ground freezes. The planting season is determined by the condition of trees to be planted. So long as they are dormant they may safely be transplanted. It is safe to ship plants to Southern localities later than would be supposed, because vegetation in Massachusetts is dormant later than farther south.

**O**UR terms are cash except by special arrangement. Please remit by draft on Boston or New York banks, if convenient, or send your personal check, or post office or express money order, or cash by registered mail. Customers not rated in Dun's or Bradstreet's, and unknown to us, should enclose 50 per cent of the amount of the bill with order, the plants to be delivered collect on delivery.

**W**E use the greatest care in following instructions, and our intention and instructions are invariably to send out only first-class plants and seeds, true to label, well-packed, and in good condition, but it is obvious that no sale carries any warranty, expressed or implied. We gladly rectify error, if claim is made upon receipt of the goods, but cannot be liable for more than the purchase price. Our reputation and experience are back of every shipment. None of our plants have ever proved untrue to label.

Address all correspondence and orders to  
**AMERICAN FORESTRY COMPANY**  
**15 BEACON ST., BOSTON, MASS., U.S.A.**

To Our Customers:

Our Little Tree Farms, the largest forest nurseries in America, were established seven years ago to supply a more successful product than we could otherwise obtain for the contracting department of the American Forestry Company.

This Company, operating in all lines of forestry work, commercial and esthetic, realized the need of more scientifically grown and climatically adapted plants, in greater numbers and varieties, and at more truly economical prices than could be had in the market.

The Little Tree Farms were the outgrowth of our effort to meet this need. In them we have grown the highest quality of little trees that can be produced, in all the varieties which we find to be hardy and truly valuable in this country, and in sizes best adapted to thoroughly successful planting.

Every one of our little trees is grown according to the recognized principle of seed origin, all of our seeds being collected either by our own men or by tested experts in regions which we specify, and from hardy, vigorous trees.

We do not use chemical fertilizers, nor shade and protection, which give a deceptive appearance of height and color, and make for tenderness and succulence rather than hardiness, "woodiness" and endurance. We transplant by our own tested and careful methods, at proper intervals, and we keep our trees absolutely free from weeds, insect pests, and diseases. Our plants are never exposed to the contagion of imported diseases, for we import nothing.

Furthermore, all of our little trees are kept in the nursery ground until shipping time, when they are dug fresh, packed fresh, and shipped fresh to the customer in as nearly an ideal and perfect condition as is possible to realize.

In brief, our little trees are fitted to thrive by (1) strict adherence to the scientific and natural principles of seed origin, not widely understood, but absolutely essential,--the only foundation of real tree success; (2) by growth without the use of chemical or commercial fertilizers or shade or protection and by adaptation to soil; (3) by scientific transplanting and care; (4) by being kept in the nursery ground until shipping time,--dug fresh, packed fresh, and shipped fresh.

When you buy of us, you receive the lowest possible price consistent with the highest quality, and you avoid the pest danger and deterioration of foreign and imported plants.

These are some of the reasons why our little trees give us the best results in our own extensive forest plantings, and why we confidently offer them to you as the best and most economical product for your needs.

Yours sincerely,

A handwritten signature in cursive script that reads "Theodore J. Borst."

Forest Engineer.

## CONIFEROUS TREES (Evergreens)

ABIES BALSAMEA, Mill.	Balsam Fir	100	1000
2-yr., Seedling	3 to 6 in.	\$1.00	\$7.00
2-yr., Seedling	2 to 3 in.	.75	4.50

ABIES CONCOLOR, Lindl. & Gord.	Silver, or Concolor Fir (Colorado seed)		
--------------------------------	---	--	--

Transplanted	18 to 24 in.	\$20.00	\$175.00
5-yr., Transplanted	12 to 18 in.	16.00	145.00
Transplanted	8 to 12 in.	12.00	100.00
Transplanted	4 to 8 in.	7.50	60.00
Transplanted	2 to 4 in.	4.50	30.00
Seedling	8 to 12 in.	3.00	25.00
Seedling	6 to 8 in.	2.25	18.00
Seedling	3 to 6 in.	1.50	9.00

Splendid seedlings, well developed and thoroughly hardy, from seeds collected in Rocky Mountains, Colorado. Visiting nurserymen buy in quantity at sight.

JUNIPERUS VIRGINIANA, Linn.	Juniper: Savin (New England seed)		
-----------------------------	-----------------------------------	--	--

Twice Transplanted	12 to 18 in.	\$25.00	\$225.00
Twice Transplanted	8 to 12 in.	15.00	125.00
Transplanted	18 to 24 in.	18.00	150.00
Transplanted	12 to 18 in.	12.00	100.00
3-yr., Transplanted	8 to 12 in.	9.00	75.00
2-yr., Seedling	3 to 6 in.	1.75	15.00

Our Junipers are all grown from hardy New England seed of our own collecting. They are beautiful little plants, in shape and sturdiness. Dug and shipped the same day.

LARIX EUROPEA, D. C.	European Larch		
Twice Transplanted	3 to 4 ft.	\$85.00	\$275.00
Twice Transplanted	2 to 3 ft.	18.00	165.00
Twice Transplanted	1 to 2 ft.	10.00	80.00
Transplanted	4 to 5 ft.	20.00	
Transplanted	3 to 4 ft.	14.00	120.00
Transplanted	2 to 3 ft.	10.00	80.00
Transplanted	1 to 2 ft.	5.50	40.00

LARIX LEPTOLEPSIS, Gord.	Japanese Larch		
2-yr., Seedling	3 to 6 in.	\$2.00	\$15.00

This species is well worth more extensive use. It grows extremely fast.

PICEA ALBA, Link.	White Spruce (Maine seed)		
Transplanted	12 to 18 in.	\$8.00	\$70.00
Transplanted	8 to 12 in.	5.50	40.00
Transplanted	4 to 8 in.	4.00	30.00
Seedling	4 to 8 in.	1.75	10.00
2-yr., Seedling	2 to 3 in.	.75	3.00

Our seedlings were grown from seed from the Maine coast, where the species reaches an unusual development. They are perfectly grown, and splendidly rooted.

White Spruce is one of our best trees—a rapid grower, in demand for ornamental purposes, and having valuable wood.

Letters from many nurserymen speak of perfect results in transplanting them.

PICEA ALBA, Link.	Black Hills Spruce
ALBERTIANA, S. Brown.	100 1000

4-yr., Transplanted	12 to 18 in.	\$10.00	\$75.00
Transplanted	8 to 12 in.	6.00	50.00
Transplanted	4 to 8 in.	4.00	30.00
Seedling	8 to 12 in.	2.00	12.00
Seedling	4 to 8 in.	1.25	9.00

We have a fine supply, grown from seeds collected in the Black Hills.

PICEA ENGELMANNI, Engelm.	Engelmann Spruce
---------------------------	------------------

Twice Transplanted	12 to 18 in.	\$25.00	
Twice Transplanted	8 to 12 in.	10.00	
Twice Transplanted	4 to 8 in.	7.50	
4-yr., Transplanted	6 to 8 in.	5.50	\$40.00
Transplanted	3 to 6 in.	3.50	25.00
3-yr., Seedling	4 to 8 in.	2.00	15.00
2-yr., Seedling	1 to 3 in.	1.00	7.50

PICEA EXCELSA, L. K.	Norway Spruce
----------------------	---------------

Twice Transplanted	2 to 2½ ft.	\$14.00	\$125.00
Twice Transplanted	18 to 24 in.	10.00	90.00
Twice Transplanted	12 to 18 in.	7.00	60.00
Twice Transplanted	8 to 12 in.	5.00	40.00
Twice Transplanted	4 to 8 in.	3.00	25.00
Transplanted	2 to 2½ ft.	8.00	70.00
Transplanted	18 to 24 in.	6.00	50.00
Transplanted	12 to 18 in.	4.00	30.00
Transplanted	8 to 12 in.	2.25	15.00
Transplanted	4 to 8 in.	1.50	9.00
Seedling	8 to 12 in.	1.00	7.50
2-yr., Seedling	4 to 8 in.	.75	5.00

Our transplanted stock has earned appreciative letters from careful buyers, and our prices are very low.

PICEA MARIANA, (Mill.) B. S. P.	Black Spruce
NIGRA (Link)	

Seedling	12 to 18 in.	\$3.00	\$20.00
Seedling	8 to 12 in.	2.00	15.00
Seedling	4 to 8 in.	1.50	10.00

Well grown, well hardened off seedlings; they will please you. They are all grown of Maine seeds and will thrive when set out.

PICEA RUBRA, (Lamb.) Link.	Northern or Red Spruce, also ("Black Spruce")
----------------------------	---

Transplanted	8 to 12 in.	\$3.00	\$25.00
Transplanted	4 to 8 in.	2.00	18.00
Seedling	12 to 18 in.	2.00	14.00
Seedling	8 to 12 in.	1.50	10.00
Seedling	4 to 8 in.	1.00	5.00

This splendid native tree deserves far more general use. We have nice stock at low prices.

PICEA PUNGENS, Englm. (Nursery run.)	Colorado Blue Spruce
--------------------------------------	----------------------

Twice Transplanted	18 to 24 in.	\$25.00	\$200.00
Twice Transplanted	12 to 18 in.	15.00	125.00
Twice Transplanted	8 to 12 in.	10.00	75.00
Twice Transplanted	4 to 8 in.	5.00	40.00

LARGE ORDERS ARE SUBJECT TO A DISCOUNT

<b>PICEA PUNGENS</b> , Engelm. (Nursery run.)	Colorado Blue Spruce	100	1000
(Continued)			
Transplanted	12 to 18 in.	\$10.00	\$80.00
Transplanted	8 to 12 in.	7.00	55.00
Transplanted	4 to 8 in.	3.25	27.50
Seedling	12 to 18 in.	3.00	20.00
Seedling	8 to 12 in.	2.00	15.00
Seedling	4 to 8 in.	1.25	8.00

We have perfect plants, with bushy, dense tops and heavy, fibrous roots. We grew them from seed of blue trees. Seed collected in Colorado. They are sold "nursery run." None of the bluest ones have been picked out. Having the largest supply of these fine specimens in the country, we are making the lowest prices.

<b>PINUS AUSTRIACA</b> , Hoss.	Austrian Pine	100	1000
Transplanted	8 to 12 in.	\$6.00	\$50.00
Transplanted	4 to 8 in.	3.50	30.00
2-yr., Seedling	4 to 6 in.	1.00	6.00
2-yr., Seedling	2 to 4 in.	.75	4.00

<b>PINUS CONTORTA</b> , Loud.	Shore Pine	100	1000
3-yr., Seedling	12 to 18 in.	\$10.00	\$75.00
3-yr., Seedling	6 to 12 in.	5.00	40.00

<b>PINUS DIVARICATA</b> , Du Mont. syn. <i>Bank's Pine</i>	BANKSIANA, Lamb.	100	1000
Twice Transplanted	5 to 6 ft.	\$12.50	\$100.00
Twice Transplanted	4 to 5 ft.	8.00	70.00
Transplanted	18 to 24 in.	5.00	
Transplanted	12 to 18 in.	3.00	

No more unusual offer has ever been made—Large evergreens at a little price. They will thrive on the poorest, driest soils, in the most exposed places.

Bank's Pine is beyond question a rapid grower. It deserves its popular names—"the sudden sawlog," the "poplar of the Evergreens." It is certainly a good tree for "immediate results." We have a large supply and can sell them at a price you could not dig them for,—five to ten cents apiece. The Bank's Pine is the hardiest native evergreen tree we have, and is especially adapted to dry, loose soil, where it has a wondrous power of withstanding drought. It is of rapid growth when young, which, together with its great hardness, has led to its being planted on some of the sandiest dry lands of the country. It is very valuable for such locations. It often acts as a nurse tree for the Red Pine and others.

It is one of the first evergreens to start on the abandoned dry pine land in many sections. It will thrive on the poorest, driest soils, in the most exposed places.

A very pronounced peculiarity of this tree is its habit of forming several whorls of branches on the new growth. This is especially noticeable when the trees are young and growing rapidly, when as many as six whorls of branches may be seen on a year's growth. This tree, under favorable conditions, will occasionally attain a height of 125 feet and a diameter of two feet. However, it is seldom over seventy feet high and eight to twelve inches in diameter, and generally where it occurs in pine forests it is only forty or fifty feet high. Much of it is used for fencing, farm buildings, railroad ties, and as fuel. When young it grows twice as fast as the white pine.

<b>PINUS FLEXILIS</b> , James.	Limber Pine, Western White Pine	100	1000
Transplanted	4 to 8 in.	\$5.00	\$40.00
Seedling	3 to 6 in.	1.75	12.00
2-yr., Seedling	2 to 3 in.	1.00	7.00

LARGE ORDERS ARE SUBJECT TO A DISCOUNT

<b>PINUS LARICIO</b> , Poir.	Corsican Pine	100	1000
2-yr., Seedling	2 to 3 in.	\$0.75	\$4.00
<b>PINUS MONTICOLA</b> , Dougl.	Silver or Western White Pine (Mountain Pine)		
Transplanted	4 to 8 in.	\$4.00	\$35.00
Seedling	1 to 2 in.	.75	5.00
<b>PINUS MUGHUS</b> , Scop., MONTANA	Dwarf Mountain Pine		
Transplanted	3 to 6 in.	\$5.00	\$40.00
Seedling	1 to 3 in.	.75	6.00
<b>PINUS MURRAYANA</b> , "Oreg. Com."	Lodgepole Pine		
Seedling	2 to 4 in.	\$1.00	\$5.00

<b>PINUS RESINOSA</b> , Ait.	Red, or Norway Pine	100	1000
Transplanted	12 to 18 in.	\$8.50	\$70.00
Transplanted	8 to 12 in.	5.00	40.00
Transplanted	6 to 8 in.	3.00	20.00
Transplanted	4 to 6 in.	2.00	15.00
3-yr., Seedling	8 to 12 in.	2.50	20.00
3-yr., Seedling	6 to 8 in.	2.00	12.00
2-yr., Seedling	4 to 6 in.	1.25	7.00
2-yr., Seedling	3 to 4 in.	1.00	4.00

The best rooted and developed seedlings of this species we have ever grown—guaranteed true resinosa.

This species has been scarce in the market for several years, and substitution of other species has been known. We have a large supply of stocky, finely grown, and unusually well-rooted seedlings. Visiting nurserymen have bought them at sight. Considering the high price of the seeds these plants are extremely cheap.

The Red Pine is one of the most valuable native trees for general planting. It grows faster than the White Pine, often on poorer and more wind-swept soils. It withstands salt air and spray as few other trees do. It is picturesque even on poor soils and on richer soils its vigorous, long, deep green needles are superb. The wood of this species is valuable and is being more appreciated every year.

<b>PINUS RIGIDA</b> , Mill.	Pitch Pine	100	1000
Transplanted	4 to 7 ft.	\$25.00	
Transplanted	3 to 4 ft.	8.50	\$75.00
Transplanted	2 to 3 ft.	6.00	50.00
Transplanted	18 to 24 in.	5.00	45.00
Seedling	9 to 12 in.	1.00	6.00
3-yr., Seedling	4 to 8 in.	.85	4.00
Seedling	3 to 6 in.	.75	2.75

This is the most enduring of our native pines under adverse conditions of soil, exposure and drought. On good soils it thrives, and is considered by many owners a most picturesque tree.

<b>PINUS STROBUS</b> , Linn.	White Pine	100	1000
Twice Transplanted	3 to 4 ft.	\$25.00	\$200.00
Twice Transplanted	2 to 3 ft.	18.00	175.00
Twice Transplanted	18 to 24 in.	10.00	80.00
Twice Transplanted	12 to 18 in.	8.00	60.00
Twice Transplanted	8 to 12 in.	4.00	30.00
Transplanted	3 to 4 ft.	12.00	100.00
Transplanted	2 to 3 ft.	9.00	75.00
5-yr., Transplanted	18 to 24 in.	7.50	60.00

Prominent nurserymen have said that we have the finest supply in America. This tree cannot longer be imported,

LARGE ORDERS ARE SUBJECT TO A DISCOUNT

**PINUS STROBIS, Linn.****White Pine**  
(Continued)

owing to the dreaded "blister rust" in Europe. We have a splendid supply, and should have your orders.

During the American Nurserymen's Convention in Boston many of America's best growers visited the "LITTLE TREE FARMS," and declared our stock as fine as they had ever seen.

	100	1000
4-yr., Transplanted	12 to 18 in.	\$3.50 \$25.00
Transplanted	8 to 14 in.	2.25 18.00
4-yr., Transplanted	6 to 12 in.	1.75 10.00

Four-year old transplanted White Pines are the safest trees for general use in reforesting idle lands; they are the surest to grow. These are heavy, stocky trees, with good tops and a mass of fibrous roots.

Transplanted (Heavy)....	5 to 8 in.	\$1.50 \$8.00
Transplanted .....	4 to 8 in.	1.00 6.00
3-yr., Transplanted .....	3 to 4 in.	.80 5.00

This size is splendid for underplanting, and will stand shading as well as dry exposures. They are sure to live and thrive.

Seedling .....	12 to 18 in.	\$1.50 \$10.00
Seedling .....	8 to 12 in.	1.25 7.00

Our seedlings are as well rooted as the cheaply produced, chemically nourished transplants recently brought into the market. We have improved our seedlings so that we can now offer in them a better value than the low grade transplant of competition.

3-yr., Seedling .....	6 to 8 in.	\$1.00 \$5.00
-----------------------	------------	---------------

These are the most successful three-year seedlings we have ever grown. They are vigorous, and the price is extremely low.

3-yr., Seedling No. 1 quality ....	4 to 6 in.	\$0.85 \$3.00
------------------------------------	------------	---------------

This is a good grade of three-year seedlings, with good roots. They are certainly a bargain at these prices.

Seedling, No. 1 quality ...	3 to 5 in.	\$0.75 \$2.25
2-yr., Seedling, good quality ....(average size)		2.00

Our seedlings are raised from seed of our own collecting from a perfect stand of thinned timber in New Hampshire. They are hardened off and abundantly rooted, stocky and well balanced in top and root. Do not forget that in cataloguing only the height is given; a lank, over-stimulated plant of the same "size" cannot compare with our sturdy, naturally grown trees, for real quality.

**PINUS SYLVESTRIS, A.****Scotch Pine**

	100	1000
Twice Transplanted.....	4 to 5 ft.	\$18.00 \$150.00
Twice Transplanted.....	3 to 4 ft.	10.00 90.00
Twice Transplanted.....	2 to 3 ft.	8.00 70.00
Twice Transplanted.....	18 to 24 in.	7.00 60.00
Transplanted .....	5 to 7 ft.	20.00 175.00
Transplanted .....	4 to 5 ft.	15.00 135.00
Transplanted .....	3 to 4 ft.	8.00 70.00
Transplanted .....	2 to 3 ft.	6.00 50.00
Transplanted .....	12 to 24 in.	4.50 40.00

Our plants are well rooted, and were all grown from seeds at the "Little Tree Farms." Our success with Scotch Pine has been commented upon by experienced nurserymen.

Recently a number of state and private foresters have set out large quantities, and the trees are growing rapidly. Scotch Pine is the pine of Europe, and the wood is highly valued there. It is used for a great variety of purposes, and brings good prices.

**PSEUDOTSUGA TAXIFOLIA, Britt.**  
syn., **DOUGLASII, Carr.**

Douglas Spruce	(Rocky Mt. seeds)
100	1000
Transplanted .....	4 to 8 in.
Transplanted .....	2 to 4 in.
Seedling .....	8 to 12 in.
Seedling .....	4 to 8 in.
Seedling .....	3 to 6 in.
2-yr., Seedling .....	2 to 3 in.

These little trees were raised from Rocky Mountain Colorado seed, and are perfectly vigorous and hardy, as well as painstakingly grown. They are straight, well topped, well rooted; nicer plants can't be had. In anticipation of the annually increasing demand we have grown a million little trees of this most valuable, beautiful and adaptable species. The Douglas is one of the most majestic trees of North America, and has found favor wherever introduced, here and in Europe.

**TAXODIUM DISTICHUM, Rich.****Bald Cypress**

100	1000
2-yr., Seedling .....	8 to 12 in.

Seedling	12 to 18 in.		1.00	8.00
Seedling	8 to 12 in.		.85	5.00
Seedling	4 to 8 in.		.75	4.00

The true American White Ash is one of the most important and valuable trees of this country, but the inferior western green ash is often substituted for it. The white ash does remarkably well on drier lands; the trees are comparatively insect free, they grow rapidly, and have fine shape. Ours are straight, heavy, clean and vigorous. They were grown of Massachusetts seed, collected by our own men. Note the low prices.

**FRAXINUS LANCEOLATA, Borkh.****Western Green Ash**

			100	1000
Twice Transplanted	5 to 7 ft.		\$12.00	
Twice Transplanted	3 to 5 ft.		10.00

QUERCUS MACROCARPA, Michx.	Bur Oak		
(Continued)			
Seedling . . . . .	4 to 5 ft.	\$6.00	\$50.00
Seedling . . . . .	3 to 4 ft.	4.00	30.00
Seedling . . . . .	2 to 3 ft.	3.00	20.00

QUERCUS PALUSTRIS, Muench.	Pin Oak		
Transplanted . . . . .	5 to 7 ft.	\$25.00	\$185.00
Transplanted . . . . .	4 to 5 ft.	15.00	115.00
Transplanted . . . . .	3 to 4 ft.	8.50	75.00
Transplanted . . . . .	2 to 3 ft.	7.50	65.00
Transplanted . . . . .	1 to 2 ft.	7.00	60.00

Our Pin Oaks don't need to be "cut back" when set out; they have sufficient root to support the top. At "Little Tree Farms" we have learned how to produce Oaks with fibrous roots. The Pin Oak is steadily gaining in popularity. It grows quickly, has perfect shape, and endures well under many conditions. It has a vivid fall coloring.

QUERCUS RUBRA, Linn.	Red Oak		
100 1000			
Transplanted . . . . .	7 to 9 ft.	\$30.00	\$275.00
Transplanted . . . . .	5 to 7 ft.	15.00	115.00
Transplanted . . . . .	4 to 5 ft.	10.00	85.00
Transplanted . . . . .	3 to 4 ft.	7.00	60.00
Transplanted . . . . .	2 to 3 ft.	5.00	40.00
Transplanted . . . . .	1 to 2 ft.	3.25	25.00
Seedling . . . . .	5 to 8 ft.	7.00	55.00
Seedling . . . . .	4 to 5 ft.	5.50	40.00
Seedling . . . . .	3 to 4 ft.	3.50	25.00
Seedling . . . . .	2 to 3 ft.	2.50	15.00
Seedling . . . . .	1 to 2 ft.	1.50	10.00

Our Red Oaks are unusually fine; we sell them at the very lowest price because we can grow them cheaply. This is the coming oak for ornamental as well as commercial planting. The rapid growth, persistent and altogether satisfactory development of the Red Oak, as well as its beauty and its large volume of valuable wood, make this a tree of the first class. Its adaptability is proven by its wide natural range.

QUERCUS VELUTINA, Lamb.	Black Oak		
100 1000			
Transplanted . . . . .	4 to 5 ft.	\$15.00	
Transplanted . . . . .	3 to 4 ft.	9.00	
Transplanted . . . . .	2 to 3 ft.	6.00	
Transplanted . . . . .	1 to 2 ft.	4.00	\$30.00
Seedling . . . . .	2 to 3 ft.	3.00	20.00
Seedling . . . . .	18 to 24 in.	2.00	15.00
Seedling . . . . .	6 to 12 in.	1.00	7.00

These are very vigorous, unusually good stock and very cheap,—unusual both in quality and price.

SALIX PURPUREA	Purple or Welsh Willow		
Heavy Rooted Plants . . . . .	3 to 5 ft.	\$10.00	
Cuttings . . . . .	About 1 ft.	.75	\$8.00
A very rapidly growing species, which endures adverse conditions well. These are dense, heavy clumps of root.			
SALIX VIMINALIS	European Osier Willow		
Heavy Rooted Plants . . . . .	4 to 6 ft.	\$10.00	\$60.00
Heavy Rooted Plants . . . . .	3 to 4 ft.	7.00	40.00
Cuttings . . . . .	About 1 ft.	.75	3.00

This is an unusually soft, flexible willow, far superior to string for tying bundles of plants; it does not cut the bark when drawn tight. We brought this kind from Europe originally, after careful study of the best kinds in use.

LARGE ORDERS ARE SUBJECT TO A DISCOUNT

# Tree Seed Department

**T**HE American Forestry Company has large experience in the collecting, extracting, care and sowing of seed.

We have made a study of the influence of seed origin on the resulting hardiness of trees and on their silvical character, and we use our knowledge of this subject constantly in our nurseries and seed business. We are prepared to supply seed from specified regions, and to inform our customers of the regional origin of seed supplied by us, and its fitness for use in other specified regions. The seed of those trees which are hardiest and best in our vicinity is collected in Massachusetts by our own men. That which must come from other regions to be of the best source is gathered by tested collectors, and under our instructions. The most critical of foreign seed journals mentions our knowledge of seed origin with commendation.

We supply absolutely the best seed obtainable of the season's crop. Since we sow large amounts annually in our nurseries we can use any surplus, and are therefore always able to offer fresh seeds. Seed supplied by us is fresh, well cleaned and of good germinating quality.

**Order Now.** We beg to remind you that the finest quality of seed can be obtained only by collecting immediately after it ripens; many kinds deteriorate rapidly. Some seeds ripen very early in the summer and the later varieties must be gathered before the severe weather makes the work of collecting unduly expensive and difficult. Place your order early, and so give us the opportunity to meet your requirements fully, promptly and economically.

Shipping instructions are requested. With every order please give full directions for marking the package, and state whether we shall ship by mail, express or freight. In the absence of instructions we shall use our best judgment; in all cases our responsibility ceases upon delivery to the forwarding agent.

Our terms are cash, except by special arrangement. Payments should be made by draft on Boston or New York banks, bank cheque, post office or express money order, or cash in registered letter. If shipment is to be made by mail add 9 cents per pound for points in the United States, and 18 cents per pound for points in Canada. Registration (if desired) 10 cents per package additional. Bagging and boxing are charged for at cost.

**Prices may change without notice.**

**We can supply other seeds than those catalogued.**

**Orders accepted subject to crop conditions and receipt of seeds.**

**Special quotations will be made on requirements submitted early in the season, or for large quantities.**
